

# ***BORDER MINIATURES***

*Fine miniatures for the collector,  
designed by Pete Armstrong.*

The Border Miniatures range of figures and accessories is designed, sculpted and produced by Pete Armstrong in the NW of England. Occasionally guest sculptors may add items to the range too. The scope of our catalogue is constantly expanding as new subjects are introduced, the loose leaf format is designed to help collectors to keep up to date with new developments. Border Miniatures aim is to produce a fine quality product and towards this end emphasis is placed firmly on imaginative and original design work complemented by a high standard of sculpting. Much care is taken on the technical and production side of the business to ensure that a first class product reaches the collector. Historical accuracy is of paramount importance too, careful research from primary sources ensures that every detail of arms, armour and equipment is authentic. Quality in all aspects of the production of our models is our prime consideration.

# BORDER MINIATURES

*Designed by Pete Armstrong.*

Border Miniatures range of accessories is designed to complement our figures. Designed in 70/80mm scale they can be used to great effect in dioramas, vignettes and to add interest to single figures. We started off with a simple Battlefield Accessory Kit AC1 which is one of our most popular items. Our range continues to expand regularly.

## AC 1

Our base comes in two variations, (a) metal parts only (you supply a suitable base), (b) with a mahogany base. (Illustration shows AC 2b.)

The wooden base measures 65 x 65 x 27 mm.

## AC 2

We have sets of name scrolls to add to bases. Simply apply 'rub down' letters or paint them to suit. (2 of each style totalling 8 per pack.)

## AC 3

## AC 8 This is our Medieval pack. (8 as before.)

## AC 4

## AC 5

## AC 6

These crested helmets can be used with both 80/B3 & our Mounted Knight of Bannockburn, 80/M3.

## AC 12

Set of 6 shields. A range of high quality water-slide transfers is available, designed to fit them.

## AC 7

Spare arm designed to fit 80/6.

## AC 10

A small scabby dog - based on 'BRAMBLE' our adorable pet Jack Russell Terrier.

## AC 9

Lots of farmyard goings on here, this set comprises of 1 cockerel, 2 hens, 3 chicks, & 1 of each duck.

Ladies usually prefer cats.....

## AC 13

This cat comes with a rat. The cat was designed by our daughter Alice, and is her first commercial figure.

## AC 11

A fine figure of a cat, complete with 5 different rats.

## AC 15 Pavise

## AC 16

Missile weapons - C15 handgun with all the equipment needed to fire it & a crossbow with cranequin & quiver of bolts.

## AC 14

Robert the Bruce conversion set for 80/B3 & 80/M3
