## Catalogue of 90mm Model Soldiers for Collectors

5A & 5B SHEPHERD STREET · MAYFAIR · LONDON W1

JWS075

*William Shakespeare*

"EXCLUSIVE"

Our parent company Norman Newton Limited is the longest established firm in the model soldier business. For more than thirty years we have been making quality model soldiers to satisfy the exacting needs of the collector, offering the largest range and variety of figures anywhere in the world.

In this catalogue we show our range of 90mm figures — ninety millimetres being the approximate height of the figure without the headdress — depicting in accurate detail the armies of the past. The great leaders and the common soldiers alike, all have been designed after much meticulous research into the uniforms and weapons, and created by some of this country's leading craftsmen.

All the figures shown in this catalogue are made of quality white metal and are available in kit form (they can also be supplied assembled and hand-painted) to enable you to make an authentic model, evocative of the military glory and romance of a bygone age.

The kits can be easily assembled with epoxy resin adhesive, after first removing any flash from the castings with a small file or craft knife. Before painting, the assembled model should be undercoated — a spray-on matt finish white paint is ideal. A painting guide is included with every kit, and the figure can be painted with any of the proprietary brands of model paint, PVA-based colours or oils, according to your preference.

Please see the separate price list for the price and ordering details. Please note that the two and three-figure groups are charged accordingly (i.e. two and three times the price for single figures).

See also page twenty for a brief resumé of the different types of figures which we also produce.

Models designed by:  
Chas. C. Stadden, Jeff Willis and others  
Painting by:  
George Pitwood and Jill Baker  
Photography by:  
David Scheinmann
