**FIGURES
 AND
 MODELS**

THIS LISTING details all figures currently available from us. The black and white photographs show each figure from MA1 to MA106 and NH1 to NH116. The colour plate show a selection of other models.

Because we maintain a continuous policy of new releases - which amounts to some one hundred new items each twelve months - we produce three newsletters during the same period. These may be kept with the main catalogue until the page reprints are despatched to update the entire catalogue.

Orders are normally despatched within twentyfour hours of receipt. Delays can be caused, however, particularly during periods of staff holidays during the summer months or in cases where we are supplying items not produced by ourselves, eg Qspre books.

If you do need to write or telephone about your order, please allow fourteen days from the date of your original request before contacting us. This does allow time for postal delays to be resolved! Overseas customers are reminded that despatch by surface mail can take a considerable time particularly as customs formalities may be involved. These can add three weeks to the time taken.

We will be pleased to hear from you about our products and would like to hear from you which figures you wish to see added to our range.

Visitors are welcome to our factory but we normally prefer to have prior notification. This is simply to ensure that your visit is not abortive. Although we maintain full stocks of our figures, there are occasions when our stock of specific items is low. This is particularly applicable to painted and finished models.

We regret that we are unable to accept visitors during the evenings or at weekends except by special arrangement.

Thank you for your interest in our models and we hope that they will give you as much enjoyment as it is our privilege to produce them for you.
