The toy soldiers shown in this catalogue are specially created for Tradition by David Scheinmann, in a style reminiscent of the old toy soldiers which have been so popular with collectors for many years.

The figures are made in England of quality white metal and meticulously hand-painted in gloss enamel paints to the highest standards. All the figures are attractively packaged in red boxes bearing the Tradition logo.

The entire range is also available individually as unpainted metal castings, for those collectors who wish to paint their own figures – see the separate kit list.
