VERLINDEN PRODUCTIONS

VP 1277

# Verlinden Productions Newsletter

January 1998 New Items

**VP 1297**  
**Pirate: Long John**  
**Silver 120mm**

Ahoy! This swarthy villain of the seas brandishes his cutlass while standing on his one good leg. Finely detailed, this figure also includes a blunderbuss, pistol, treasure chest, and shovel plus a resin base. Pose him with #1041 Buccaneer, and look for more cutthroats in the near future!

VM-08-04

Verlinden Mod.Mag.Vol.8 No.4

This magazine was already released in December, but because we didn't have any December new items the announcement of it was delayed. Includes the final segment of our USMC LAV series, several all-new dioramas, and coverage of Mastercon 6 - all in full color!

VP 1304 Mastercon Special

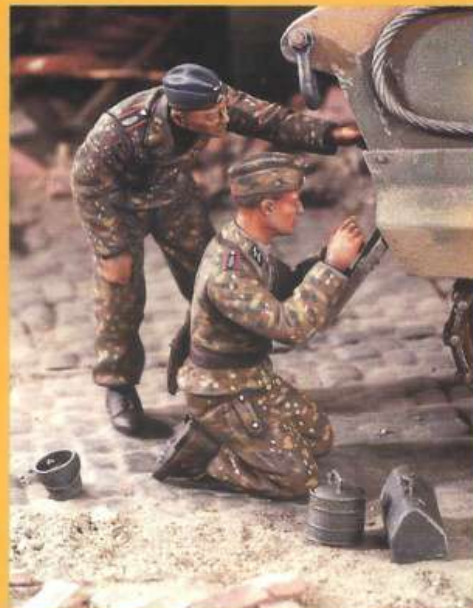

We're pleased to present our first book covering the sixth annual convention of the VLS Master's Group, held each September at our facilities in Missouri. Inside you'll find cover to cover color photos of all types of models, from figures to ships, armor to fantasy, and aircraft to dioramas, built by many of the top names in the hobby today. Come share the excitement of one of the world's top modeling shows!

VP 1303

Lock-On N°28: Me-109G-2

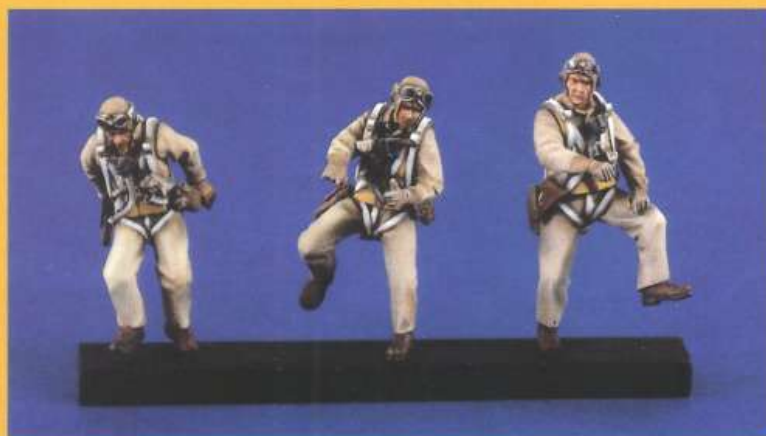

Here's an all-new aircraft reference unlike any before it. This full-color book contains hundreds of photos of a meticulously restored Me-109 in England. Several million dollars went into the research and restoration of this aircraft, brought back to flying condition by its owners. The book is packed with technical data and extensive research into every facet of the 109, plus plenty of detail shots on both plane and crew. Details of the #1302 set were taken from this plentiful reference, which contains over 215 full-color photographs.

VP 1305

Panzer Mechanics (2) 1/35

Our latest pair of WWII German tankers depicts two crewmen in a maintenance mode, one kneeling and one leaning over his shoulder directing the work. Both are in standard two-piece tanker uniforms. A fine pair of figures to go along with any German vehicle, with great conversion possibilities as well. Includes resin tool-boxes and a complete set of photo-etched tools.

VP 1298 US Navy WWII Pilots Multi-Pose (3) 1/48

For use with any World War II U.S. aircraft, we present a new three figure set of multi-pose pilots. They can be swapped around to create pilots climbing aboard, climbing off, or bailing out. All resin, they include pistols, canteens, and separate oxygen masks.

### VP 1300 Roman Legionnaire Bust 200mm

We continue our series of 200mm busts with a bearded Roman Legionnaire of the mid-1st Century A.D. He is rendered in a cuirass breastplate of multiple sections, and Imperial Gallic helmet with cheek-guards. An excellent study in both character and metal painting.

### VP 1299

### Battle On The Ice 120mm

In 1242, the Crusader armies of the Baltic clashed with the Russian forces of Alexandre Nevskii on the frozen surface of Lake Peipus. In a totally unique vignette, we present two of the combatants on a resin base, with one figure's mount having crashed through the ice into the chilling water below. His opponent wades forward, as the two men are depicted in the final seconds before blades meet bone.

### VP 1301 "Follow Me" Jeep - Airfield Communications Vehicle 1/48

Our 1/48th Willys Jeep returns in an all-new configuration. A common sight at any Allied airfield, the "Follow Me" jeep directed incoming aircraft to their destination. With radios included, this resin vehicle includes photo-etched detail and printed signage.

# Verlinden Productions Newsletter

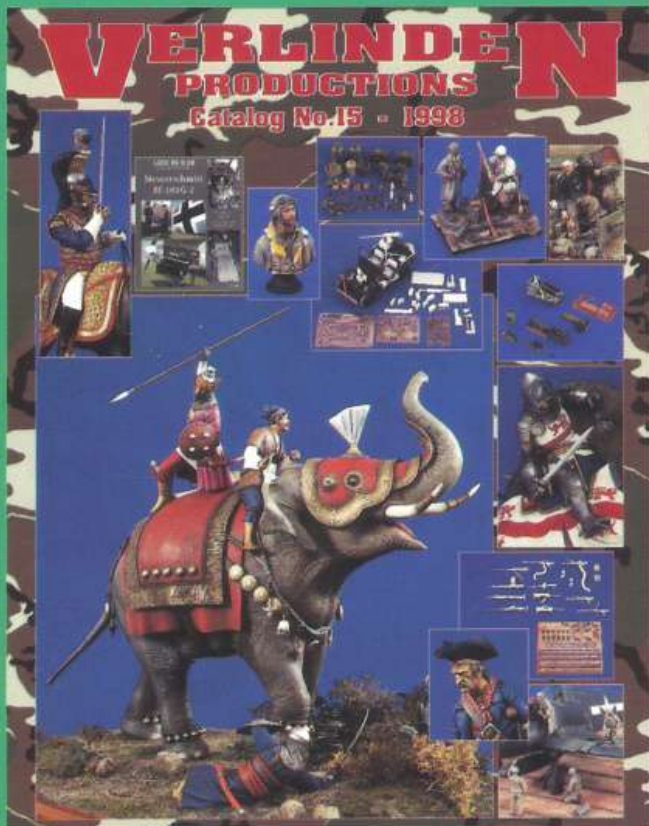

## February 1998 New Items

A vignette using figures #1311 and #1313, along with pieces of the Medieval Accessories Set #1309. The trench wall is included with the French Knight; you can easily duplicate this scene by scratchbuilding a new base for the English Foot Soldier and combining the two figures.

VP 0011/98

### Verlinden Productions Catalog No. 15 - 1998

Bigger and better than ever, the new VP catalog is here! 112 pages in full color showing all of the Verlinden products, plus all the VP Publications and magazines and Trophy Models. Includes comprehensive product index, along with preview photos of future releases. Our largest catalog to date, packed with your favorite figures, updates, and accessories.

### VP 1308 Diorama Base Street Corner 1/35

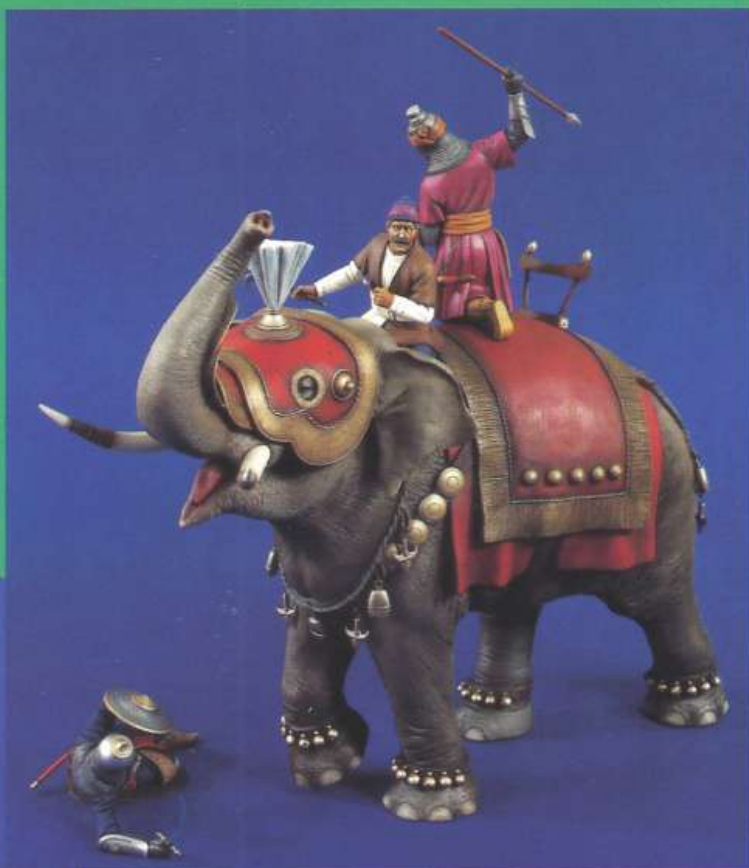

This all-resin item is composed of a 7.5"x5" cobblestone street with sidewalk and ruined building corner, a lamppost, barrels, and ammo cases. Works perfectly as a stage for figures or small vehicles, and can easily be combined with any of the other VP buildings and cobblestone street section #1145. An endless variety of possibilities!

VP  
SUPER  
VALUE

### VP 1312 German WWII Soldiers Equipment 1/35

Here's a deal to dress up your Germans and fill up your parts box. Our latest SUPER VALUE set includes five each of 17 different items: two types of officer's caps, helmets with liners (both with and without covers), map cases, binoculars, ammo pouches, canteen, and more. Gear up!

**COMING IN MARCH!**

### VP 1319 Mughul India War Elephant 16th Century 120mm

Weighing nearly five pounds and standing over 10" from hoof to trunk, here's the largest single resin casting we've ever produced. This massive animal comes complete with three figures - mahout driver and gunner plus a Hindu ground defender - and is heightened even more by the kneeling attacker. Both fighters are heavily armed in chain mail and helmet and wear the colorful robes of the period. The elephant is represented in the typical dress of fabric-covered lamellar and mail to protect its vulnerable ears, head, and trunk, and was widely used for both attack and transport roles. This colorful release is a painter's delight and a guaranteed showpiece. (Base not included.)

### VP 1309 Medieval Accessories Set 120mm

With the increasing popularity of our medieval knights, you knew this was coming - an accessory set to dress up your figures and help create vignettes and dioramas. The set includes three shields, four swords with and without scabbards, three daggers, three helmets, a mace, a battle axe, and two spears.

### VP 1313 English Foot Soldier - Agincourt 120mm

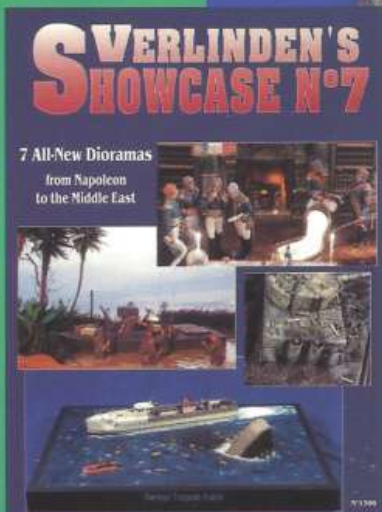

Less glamorous but just as important as the knights, this medieval "grunt" prepares to address his next adversary - either #1311 or a variety of other VP figures. He wears the *chapel-de-fer* kettle hat, heavy leather jerkin, and cape, and is in the "action" pose of preparing to swing his battle axe. Complete with scenic resin base.

### VP 1311 French Knight /Agincourt 120mm

A highly animated French knight descends into a trench brandishing his sword. He wears a surcoat emblazoned with the arms France Modern and a label Argent, along with improved armor which protected the neck and allowed the knight's head to turn more easily in battle. Includes resin base as shown. This figure can be combined with #1313 or any of the other VP knights.

### VP 1306

#### Verlinden's Showcase No. 7

We continue our long-running series of modeling manuals with our latest Showcase, featuring 7 spectacular all-new dioramas. From the Napoleonic Era to the two World Wars to the Middle East, this full-color 36-page book features the latest works of Bob Letterman, Lewis Pruneau, Andrew Meyers, Bill Konn, and Greg Cihlar.

### VP 1310 Civil War Bivouac Site 1/35

Civil War modeling has never been more popular, so by popular demand we launch our first 1/35 release in the growing North & South mini-series. Two weary Confederate troops take a break from the war, pausing for a bit of rest and a meal. The figures themselves can be used with any Civil War scene, or can be posed on the separate resin base. The base comes with barrel and log, along with separate rifle, coffee pot, bottles, and food supplies.

Contents of kit

**VP 1307  
WWI-WWII Gun Emplacement 1/35**

A common fortification across Europe in both World Wars was the use of vertical logs to create gun positions and trenches. This ceramic item includes one large abutment and an island for use with artillery pieces, defensive armor positions, rest areas, etc.

March 1998 New Items

(Base not included)

## VP 1319 Mughul India War Elephant 16th Century 120mm

Weighing nearly five pounds and standing over 10" from hoof to trunk, here's the largest single resin casting we've ever produced. This massive animal comes complete with three figures - *mahout* driver and gunner plus a Hindu ground defender - and is heightened even more by the kneeling attacker. Both fighters are heavily armed in chain mail and helmet and wear the colorful robes of the period. The elephant is represented in the typical dress of fabric-covered lamellar and mail to protect its vulnerable ears, head, and trunk, and was widely used for both attack and transport roles. This colorful release is a painter's delight and a guaranteed showpiece. (Base not included.) Don't miss the latest Verlinden Modeling Magazine, also available this month, which includes full-color assembly and painting tips from Francois Verlinden on this release.

### VP 1317 "The Grunt" Vietnam - 200mm Bust

A hardened veteran of the Vietnam experience is the latest addition to our line of busts. His helmet with camo cover is bedecked with playing card, matches, smokes, and 'bug juice'. He wears the OD jungle fatigues and M1956 harness, and carries first aid pouch plus smoke and frag grenades. His collar insignia identifies him as an infantry lieutenant. A fine study in the warrior of a more modern age.

### VP 1316 WWII German Soldier's Graves 1/35

An interesting detail for any German or Allied WWII diorama. Four different resin graves mark the final resting place for German soldiers. Includes rifles and helmets for the typical comrade's salute. Use multiple sets or combine with 0722 Roadside Shrines and 1151 Tombstones to create an entire cemetery.

### VP 1315 Prussian Liebusaren Officer Waterloo 120mm

This officer is an adversary to Napoleon's forces at the Battle of Waterloo. Men of the Liebusaren were descended from Frederick the Great's hussars, wearing the death's head emblem which would later be adopted by the SS in World War II. His somber uniform consists of black shako, dolman tunic, and pelisse jacket, with grey trousers. He adds a fine tone to the colorful line of VP Napoleonic.

### VP 1320 German WWII 75mm Infantry Gun 120mm

Mass production of this versatile field piece resulted in its deployment in virtually every WWII campaign in Europe. Pre-war development featured spoked wheels, quickly updated to the rubber tire version seen here for mechanized towing. This 75mm weapon boasted a range of 4,600 meters, but was often used during close-in fighting in both offensive and defensive postures. This Super Scale addition includes ammo, and is an all-resin kit. And check out that price!

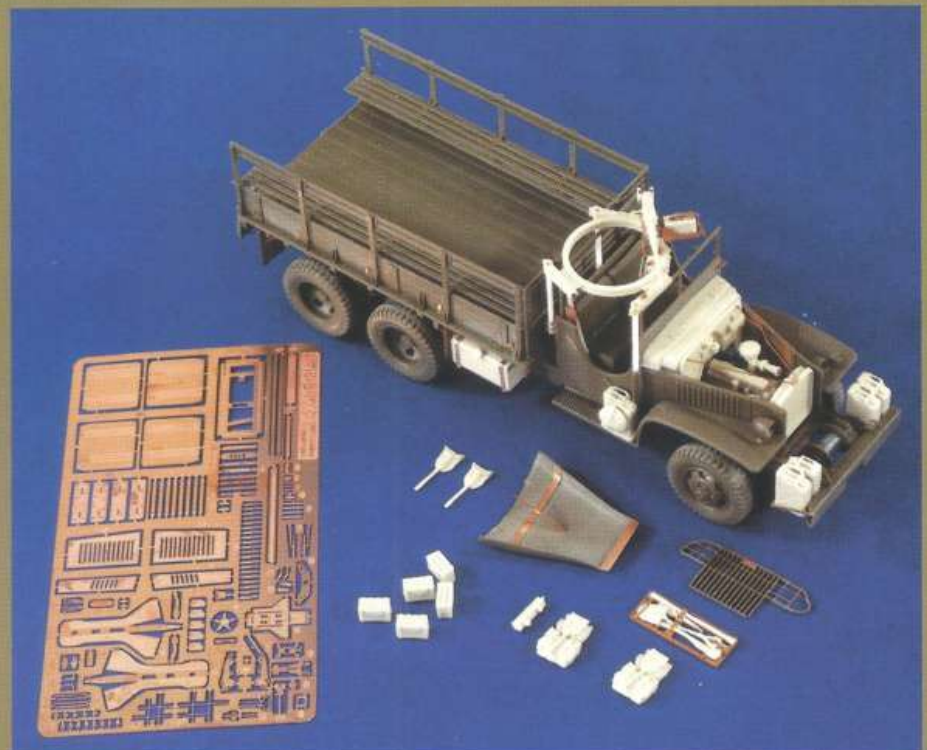

### VP 1322 German WWII Tiger Tank Crew Resting (2) 1/35

Two officers of the Panzertruppen take a break on the ground. One wears the black tanker tunic with full insignia and badges and the black panzer M43 field cap. His companion wears the mouse grey tanker shirt with badges and insignia, plus the *Schirmmütze* dress cap. Both wear the Knight's Cross and tanker trousers. Separate field glasses and case are included. Park them next to any German AFV.

### VP 1318 The Surrender (2 figures) 1/35

A grenadier of the Waffen-SS searches his Russian prisoner. The German soldier wears camo smock and helmet with camo cover, and the bareheaded Soviet is equipped with greatcoat, cloth haversack, and more. Excellent figures for any Eastern Front vignette or diorama, or perfect companion figures for the Lenin Statue (#1280).

### VP 1314 GMC 6x6 Update Set 1/35

A detailed update for Tamiya's latest. Resin parts include .50 caliber machine gun, M3 ring mount, complete engine, fuel tank, new firewall, upper decking for hood removal, radiator, pioneer tools, fuel cans, ammo cans, stowage, and more. Photo-etch includes machine gun cradle, new mudflaps and brackets, engine compartment detailing, windshield wipers, rifle brackets, pioneer rack, and various other exterior fittings.

# Verlinden Productions Newsletter

April 1998 New Items

## VP 1323 Heinkel He219 A-7 "UHU" Upgrade 1/48 Scale (for Tamiya)

A detailed update for Tamiya's kit. Resin parts include engine and engine details, cannons, gunsight, and flame shields. Extensive photo-etching includes gunbays, ammo bays, cowling covers, flame shield grills, seatbelts, access doors and hatches, ammo belts, and more.

### VP 1328 German Paratroopers at Break 1/35

Two German fallschirmjagers in jump smocks and helmets take a respite from the day's action. One sits cross-legged with a can of rations and spoon in hand, while the other naps against a tree stump. Excellent figures for both small and large scenes.

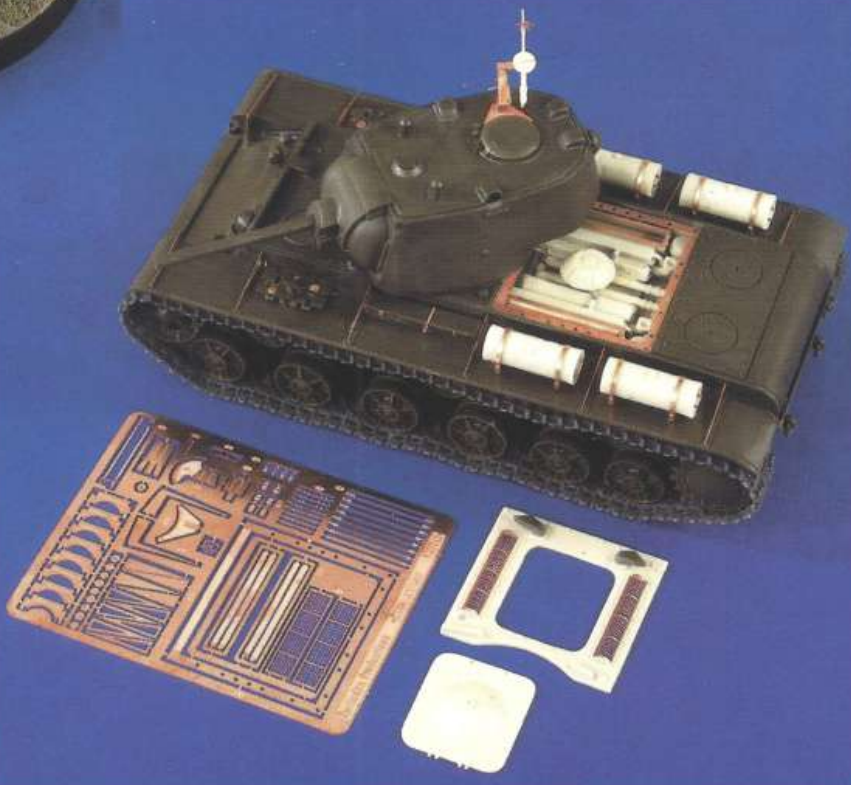

### VP 1325 Eternal Glory (2 fig. vignette) 120mm

Two Civil War soldiers meet their final destiny - one Union, one Confederate. The Yank, a 72nd Pennsylvania Volunteer Infantry "Fire Zouave", is captured in the throes of death, while the fallen Reb is integral with the resin base.

### VP 1327 US WWII Truck Drivers 1/35

Specifically designed to fit in the cab of Tamiya's new GMC 6x6 truck, here's a driver and passenger in typical European theater attire and netted helmets. They can also be easily modified to fit in other Tamiya and Italeri U.S. jeeps and transports.

### VP 1329 KV-1/KV-II Engine Compartment & Update 1/35 Scale

Here's a detailed update for some of the best-selling Russian armor of all time - Tamiya's KV series (35063, 35066, and 35142). The set includes resin fuel cells, engine compartment hatch, machine gun, engine and engine details, plus photo-etch engine screens, MG mount, and other details.

**VP 1324**  
**Tambour Major 45th Line**  
**120mm**

This figure depicts a Regimental Drum Major of the 45th Line Regiment. He wears a very colorful habit coat decorated to suit the commander's taste featuring skyblue lapels edged with gold and piped with red; bearskin cover with plumage; sword; and breeches colorfully decorated with gold Hungarian knots. He is relaxing on a well-designed drum major's mace and includes resin base.

**ON TARGET**   
**N° 1**  
**MODELLING SPECIAL**

## THE GERMAN TIGER TANKS

*by François Verlinden*

**VERLINDEN PUBLICATIONS**  **N° 1330**

**VP 1330 The German Tiger Tanks (revised edition)**

First published in 1984, this book instantly became a classic. One of the first publications from Verlinden Productions, it has been covered by armor builders for its in-depth tips on scratch-building, armor detailing, and dioramas. The book focuses on Tiger models and variants by Francois Verlinden, and has been out of print for many years. We've fine-tuned it, maintaining the original concepts and presenting it in the American format. Don't miss it this time around!

**VP 1326**  
**Richard De Vere,**  
**Earl of Oxford**  
**200mm Bust**

The Earl is depicted as he appeared at the Battle of Agincourt, wearing the newer armor with neckplate over the chain mail. His bascinet helmet is fitted with a jeweled orle (ring) above the brow. Concave plates to trap enemy points protect the chest and armpits. A very colorful and detailed portrait for the figure painter.

**VP 1331  
Blackbeard Bust 200mm**

Another swarthy cutthroat of the high seas takes his place in the VP line. This notorious pirate reputedly placed candles and cannon fuses in his beard when attacking to frighten his victims. He is depicted in tricorne hat with heavy epaulettes and crossbelts on his tunic.

New Items

1334 & 1297 combined

**VP 1334**  
**The Pirates: "Greed"**  
**120mm**  
**(2 figure vignette)**

The much-anticipated figures to go along with Long John Silver (#1297) are here! These cut-throats create an instant scene - a quarrel over a chest full of booty. The fallen pirate is integral with the base, while another villain brandishes a flintlock pistol and a bag of gold. The animation and remarkable character of the figures is certain to please. Shovel and treasure chest are included, along with base indentations for Long John. Or expand the scene with a fourth pirate, the Buccaneer (#1041).

Contents of Kit

## VP 1333 Cossack Cavalry Corps in German Service WWII 120mm

A unique blend of Russian and German personalities. Many of these famed horsemen fought on the side of the Germans, albeit with their own agenda. This soldier wears the unique uniform of blue *tcherkeska* overcoat and *papashka* hat, both with German insignia, along with cavalry boots and spurs. He is armed with the elegant *shashka* sabre and Soviet PpSH 41. The resin base comes with a fence section, and a DP28 machine gun with bipod is also included. A one-of-a-kind figure depicting one of the more interesting warriors of World War Two.

## VP 1336 US MPs WWII (2) 1:35 Scale

A fine pair of all-new standing military policemen for your European theater dioramas. One wears netted helmet and field jacket with his hands on his hips, and the other wears ODs with brassard and whistle while directing traffic. Both are armed with .45s and stand ready to get the show on the road.

## VP 1332 Luftwaffe Ground Crew WWII Summer (3 Figures) 1:48 Scale

Three all-new figures for your summer and tropical airfields. Two wear shorts and are bare-chested, and a third wears trousers and undershirt. Or, you can mix and match several sets to create a large scene. A much-needed figure set for the aircraft or small-scale armor builder.

## VP 1339 Luftwaffe Fighter Pilots WWII (3 Figures) 1:48 Scale

Three German pilots are ready to dress up your aircraft in any theater. The figures can be mixed and matched to create various poses of pilots climbing aboard or exiting their aircraft. The set includes a total of six heads: three shown plus three extras in flying caps. Two extra officer's caps and three holsters are also included to provide the modeler with an endless variety of Luftwaffe flyers.

**VP 1335**  
**General William**  
**T. Sherman**  
**200mm Bust**

One of the North's most notorious generals is brought to life in our latest North and South release. The general is depicted in service coat with necktie, and is bare-headed and bearded. A superbly lined face is sure to delight the figure painter and Civil War collector. With resin base.

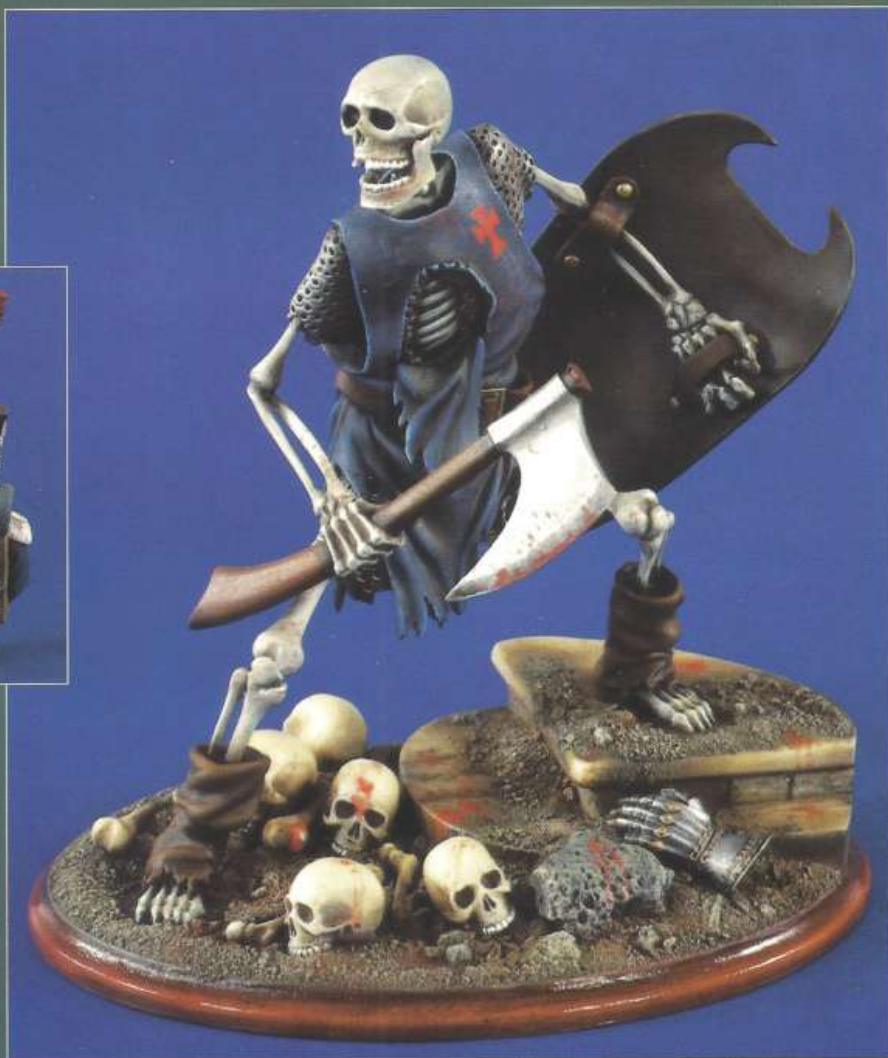

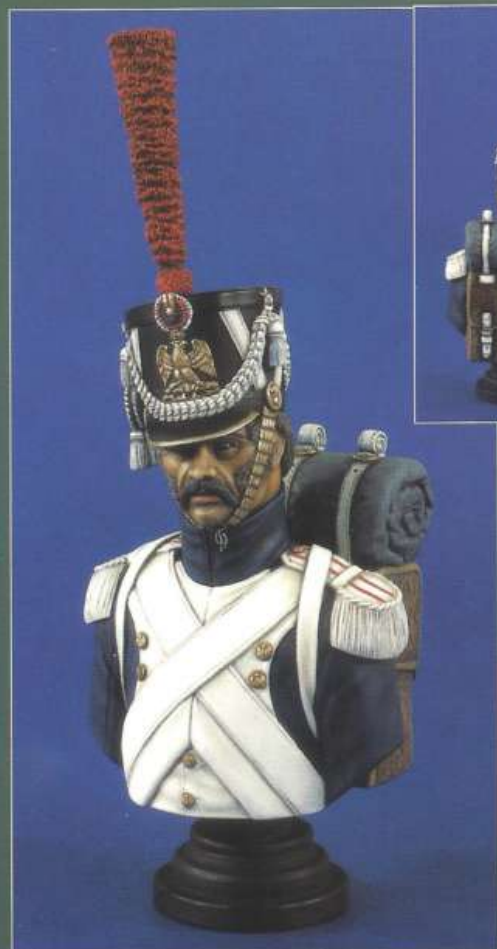

**VP 1337 German Assault Infantry (3) 1:35 Scale**

Here's a three-man German assault team in action poses. An NCO waves his troops forward; a standing soldier braces himself next to a corner or outside a doorway; and a kneeling figure pulls the pin on a stick grenade. All figures wear the field grey service uniform, helmets, and a complete complement of gear, and stand ready to attack your latest diorama.

**VP 1340**  
**Fusilier Grenadier of the Guard**  
**200mm Bust**

A remarkable bust of one of Napoleon's most trusted infantrymen of the early 1800's. He wears the black shako with red parade plume and gold chinscales. The blue coat features white lapels and white cross belts with intricate epaulettes. A heavy field pack is also included, along with a resin base. A wonderful character study for all figure painters.

**VP 1338 Skeleton Warrior 150mm**

A unique fantasy figure and a welcome addition to the VP 150mm series. This "undead" warrior is all resin, wielding a heavy battle axe and shield. Resin base includes integral steps and skulls. Optional horned helmet is included, along with an instruction sheet for assembly. Take a break from reality!

**VP 1341  
Aces of the Luftwaffe:  
Adolf Galland  
2 Complete 200mm Busts**

This unique release includes two complete busts of one of Germany's most celebrated generals. One bust depicts the aviator in flying cap and goggles with cigar, and the other has him bare-headed. Beautifully sculpted insignia and detailing will be sure to delight all figure painters and aviation personality enthusiasts. With resin base.

June 1998  
New Items

**VP 1344**  
**Officer Lancers of Berg,**  
**Napoleonic 120mm**

Conquered by revolutionary France, the Grand Duchy of Cleves-Berg was given by Napoleon to Marshal Murat in 1806. It became a satellite state of the Empire and entered the Alliance of the Confederation of the Rhine. It had to deliver 5000 troops to the Grand Army including a cavalry regiment. This spectacular mounted figure charging on a roaring horse is a very colorful addition to the Napoleonic era collection. Abandoned equipment is cast into the scenic base.

**VP 1349  
Wounded German  
Infantry WWII  
1:35 Scale**

Not much to say about this wounded WWII German Wehrmacht figure. Endless diorama and conversion potential. Comes with full gear and tree stump.

**VP 1343 FW 190A,F,G Underwing stores  
1:48 Scale**

Ground Targets Beware! This large detail set upgrades your favorite FW-190 to ground attack, long-range, and interceptor versions. Over 100 resin parts and over 100 photo-etched parts include: early/late style MK 103 cannon pods (opened or closed), 5 styles of underwing drop tank racks, 6 different styles of drop tanks, WGr 21 rocket tubes (2 empty, 2 loaded), 2 different rocket racks and rockets, twin MG 151/20 mm machine-cannon packs (opened or closed), ammo containers, centerline ETC 501 rack, quad bomb rack for SC 50 bombs and SC 250 bombs. Photo-etch includes 2 styles of landing flaps and outboard underwing access panels and gun bays. Enough parts are included to make over 10 different versions, and most parts fit most FW 190A/F/G kits.

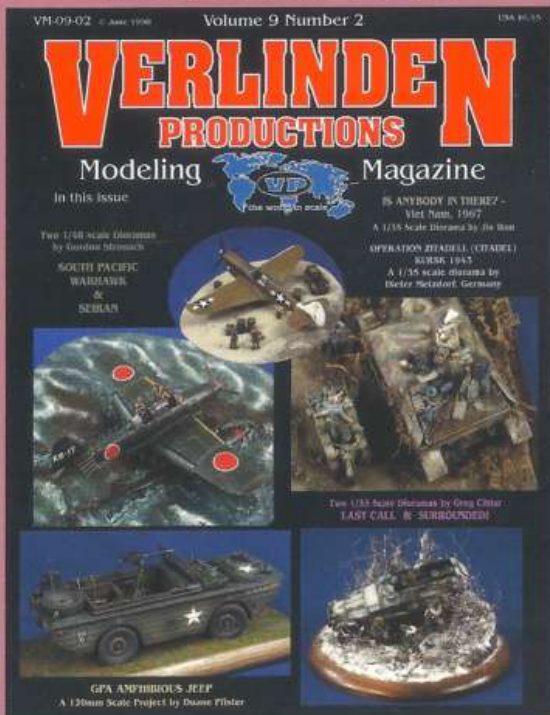

**VP 1342  
Officer Grenadier Regt. Pavlovski 1813,  
Napoleonic Russian Army. 120 mm**

The Pavlov Grenadiers were the only Russian infantry Regt. that did not have to replace the mitre as headgear with shakos after 1807, this by the grace of Tsar Alexander I for their Gallant conduct and visible mark of bravery at the battle of Friedland. This new Napoleonic era figure is the first of a series of Napoleons' enemies. A water bottle and broken trumpet are cast with the scenic base.

## VM-09-02 Verlinden Modeling Magazine Vol.9 No.2

Featured in this Magazine are Two new Airplane Dioramas by Gordon Stronach in 1:48 Scale, Two more German WWII Dioramas by Greg Cihlar, a 120mm scratchbuilding project by Duane Pfister and a 1:35 Scale Diorama by Jin Won.

## VP 1347 Napoleonic French Cuirrasier 200 mm Bust

This impressive and colorful 200 mm bust represents an officer of one of Napoleons most famous heavy cavalry units. They were loaded with eternal glory for their spectacular charge at the final battle at Waterloo. A true must for Napoleonic buffs!

## VP 1350 "Clean-up Time" (2 Figures) 1:35 scale

This original duo has endless uses for repair & maintenance scenes. A German tanker receives orders by his Sergeant to perform his task or clean-up his mess.

## VP 1346 "On the Move" 1:35 Scale

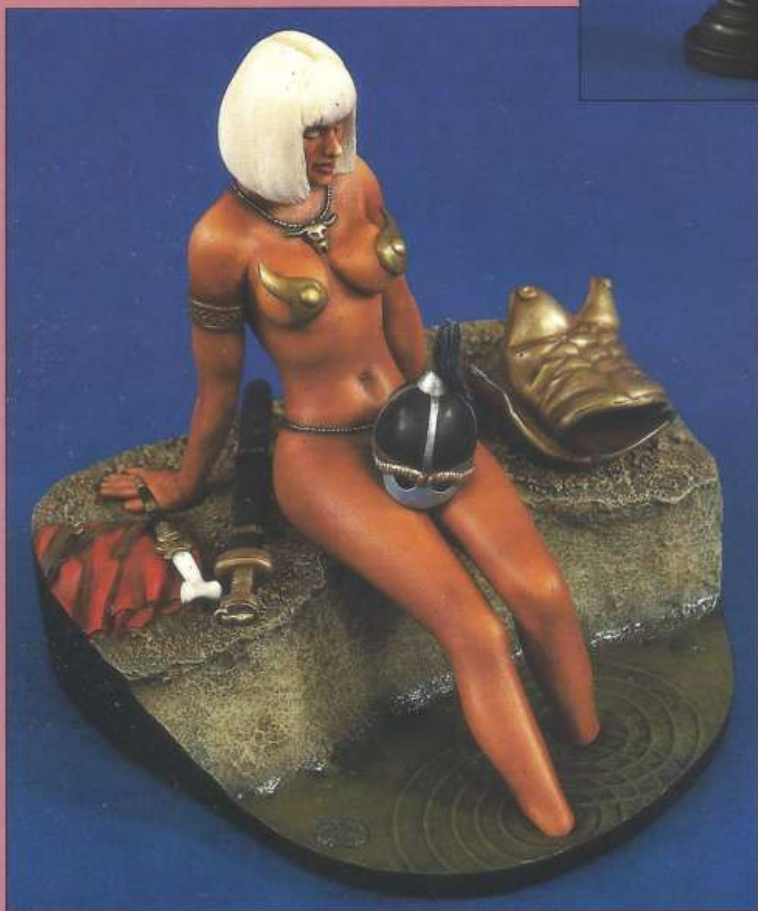

2 more German WWII soldiers dressed in heavy, warm winter clothing, on the march. A machine gunner carrying a MG 42 on his shoulder and an ammo box in his right hand moves along side his NCO, who is armed with a MP 40.

Full gear carried on their back is included. Can be used from the Russian campaign to the Battle of the Bulge. Great diorama and conversion potential.

## VP 1345 "The Warriors Rest" Fantasy 120 mm

After a while we are back in the fantasy figure arena with an attractive female warrior taking a break at the riverside preparing to take a bath. Arms and armor are separate items to be used as desired by the modeler. Scenic base included.

**VP 1348  
Downtown WWII diorama base  
1:35**

Number 2 of our new line of ready to paint diorama bases. Large enough to fit a small vehicle (a jeep or small tank). Separate walls detailed on both sides can be replaced if desired by larger and taller ones. Most details are cast in one piece with the base, eliminating most assembly, and just the fun of painting remains. Base measures 9" x 6 1/2" (16 1/2 x 22 1/2 cm) A fine example of VP's casting technology, and this is just the beginning. More to come!

July 1998  
New Items

**VP 1353**  
**Guard Grenadier Officer**  
**120mm**

For our Napoleonic subject this month we have chosen an officer of Napoleons elite troops: The Imperial Guard Grenadiers. The figure is sculpted in an attractive dramatic action pose, as he is leading the charge, shouting orders to his troops. An infantry soldier will follow later enabling a dual figure action vignette to be built.

**VP 1357**

**WWII German Infantry on the march 1:35**

Representing the late war period and dressed in a various mixture of clothing, these 2 German soldiers are on the march, an occupation that soldiers spent most of their time on. Parts are broken up in the usual way allowing separate parts to be used as-is, or to be mixed and matched with others for endless conversion possibilities. Full personal equipment included.

**VP 1355 Diorama base "At the Chapel Ruin" 1:35**

A new ready-to-paint diorama base measuring 7"x 10" (17 x 25 cm) which this time is quite large. Somewhere in Europe during WWII we see a small bombed-out chapel by a country roadside. Cast into the base are some remains from the chapel and a quantity of shattered military equipment. Only 4 parts to assemble, all resin.

Contents of Kit

**VP 1354 General Robert E. Lee  
North and South 120mm**

One of the most famous Generals in American History, and almost raised by his troops to the status of a God, Lee was definitely their most inspiring leader. This rendering of Lee comes complete with base and would make a perfect vignette with his closest comrade in arms, Stonewall Jackson (VP kit no. 1254).

**VP 1352  
Tiger Crew Relaxing 1:35**

Another set of 2 German WWII tank figures in relaxing poses to use on or around vehicles. Simple but effective to fit any diorama.

## VP 1360 Tiger engine Maybach HL 230 1:35 Disassembled

Warning! This is not a kit that is to be assembled. This item contains all of the components of a disassembled Tiger tank powerplant, separated as on the real thing. Although the parts fit together, it would be a pity to assemble this gem and hide all of the finely reproduced internal details. To complement this item, we will release next month the final Tiger I fully opened rear compartment. It's time to start on that always postponed workshop diorama!

## VP 1359 German WWII U-Boat Captain 200mm Bust

This broad-smiling U-Boat captain seems to be quite happy, having returned from several months at sea, of which his full beard testifies. His denim battle dress is adorned with full insignia: rank epaulettes, gilded eagle and iron cross. As headgear he wears the officer Schirmmütze. On the side of the capband one can recognize the emblem of his boat or flotille.

## VP 1358 U.S. Infantry Officers ETO WWII 1:35

These 2 officers are busy fulfilling their main tasks: reviewing the overall situation, analyzing information, planning ahead and getting organized, pointing out specific significant details, and constantly maintaining continuous communication with the front line and the rear.

## VP 1356 Agincourt 1415 "Eve Before the Battle" 120mm

This complete vignette shows an English knight just before the battle of Agincourt, France, 1415. He is partly dressed for an upcoming battle, has just had a final meal, and is consulting his maps as his dog stays alert at his side. A must for all medieval buffs. All resin, map included.

**VERLINDEN PUBLICATIONS**  
Modeling, Detailing, Painting, Weathering

**WWII AIRCRAFT**  
...and building Dioramas.  
Illustrated with 125 full color Photographs.

N 1351

**VP 1351 WWII Aircraft**

First in a new series of How-To Books, this one is dedicated to WWII Aircraft. With 48 pages and 125 Full Color Pictures, Aircraft enthusiasts are guided Step-By-Step through construction, painting, weather, and diorama composition, all utilizing commercially available kits, update sets, figures and accessories.

Featured in this book are beautiful pictures of J.M.Villalba's fabulously detailed P-51 Mustang, the VP Team's ME 109G-2 set in a desert environment, Tamiya's new UHU Kit updated and captured by U.S. troops, a Navy aircrew bailing out of their ditched Avenger in the Pacific, Monograms big Catalina on the high sea's rescuing downed aircrews from sharks, and finally a FW 190D-9 being repaired in a fully equipped hanger corner.

A second book on WWII period aircraft is in the making right now to be followed by Post War Jets.

## August 1998 New Items

### 1362 The Farmyard 1:35 Scale

The latest edition to our building series shows a traditional west European farm structure with a horse stable, storage space for the farm cart and tools and equipment, and a typical outhouse. Every farm had a water well situated in the middle of the yard. Built this way since the 18th century, they can still be seen in remote areas of western Europe. Our illustration shows just one of the many diorama possibilities with this kit. Ceramic building with resin roof panels and well.

Contents of Kit

**1365**  
**"Checking the Map"**  
**German WWII**  
**1:35 Scale**

Two useful figures for WWII dioramas in 1:35th scale, these Wehrmacht officers seem to be lost and are checking their map.

**1364**  
**French Foreign Legion**  
**North Africa 1942**  
**200mm bust**

This Legionaire of the 13th Demi-Brigade Legion Etrangere, 1st Free French Brigade saw action as part of the British 8th army at Narvic, East Africa and Syria. He is proudly wearing the white covered kepi and sand-scarf, which are traditional items worn by the Legionaire. Home-made collar patches showing the Legion's green flame grenade are sewn to the standard issue British battle dress.

**1367 Luftwaffe WWII Gun Cleaning 1:48 Scale**

A new 1:48 set for aircraft dioramas is this pair of Luftwaffe groundcrew members cleaning a cannon gun-barrel. Comes with German aircraft gun parts, oil drums, jerry cans, cleaning liquid cans, tool box, and photoetched tool set. Instant use for that "busy look" of activities around military aircraft.

**The Pirates**

**1366 Pirate Captain**  
**200mm Scale**

The pirate series continues with this massive 200mm giant scale mean looking pirate captain. He is wearing a worn-out ex-British army redcoat, the typical three-pointed hat, carries two pistols in his belt, and has a heavy sword at his side. Realistic touches are the many rings and on his right hand a missing finger, lost in battle.

Superb sculpting makes this a joy to paint.

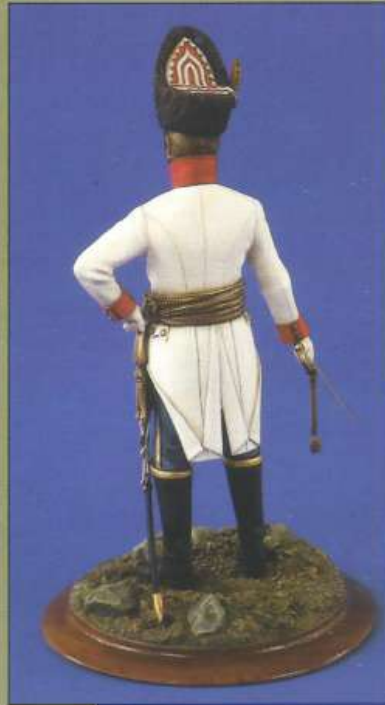

**1369 3rd New Jersey Cavalry Regiment: Fighting Butterflies**  
200mm bust

Raised early in 1864, the state of New Jersey named the regiment 1st U.S. Hussars, and to attract more recruits made the uniform fancier than the standard regulation cavalry uniform: the peak was removed from the standard issue forage cap and was worn sideways, and an extra braid was added to the jacket. A very colorful item not to be missed in any Civil War collection.

**1361 Hungarian Grenadiers Officer**  
120mm

The Austrian Empire was one of Napoleon's greatest enemies. Despite a series of lost battles at Marengo, Austerlitz, and Wagram, the Austrian army played an important role in the downfall of Napoleon. The 120mm Napoleonic figure collection continues with this colorful Grenadier officer Regt. no. 37, 1805. Resin with base.

**1363**  
**"The Posing" German WWII**  
1:35 Scale

This tank commander proudly displays his recently received Iron Cross to a PK (Propaganda Kompagnie) photographer who is directing a pose. One full and one partial figure.

**1370 Tiger I rear compartment 1:35 Scale**

This kit contains the final Tiger I rear compartment set. Full engine compartment, complete engine, fuel cells, radiators, fans, exhaust system, tubes, and hoses. Also includes all of the parts for the engine deck, which can be built in either closed or open position. All resin, fits most Tamiya Tiger kits.

**1368 U.S. Infantry E.T.O. WWII 1:35 Scale**

Two new U.S. army WWII figures which can be used in any 1:35 diorama from D-Day to Berlin. Ideal poses for action scenes, they come with full gear and equipment.

# Verlinden Productions Newsletter

September 1998 New Items

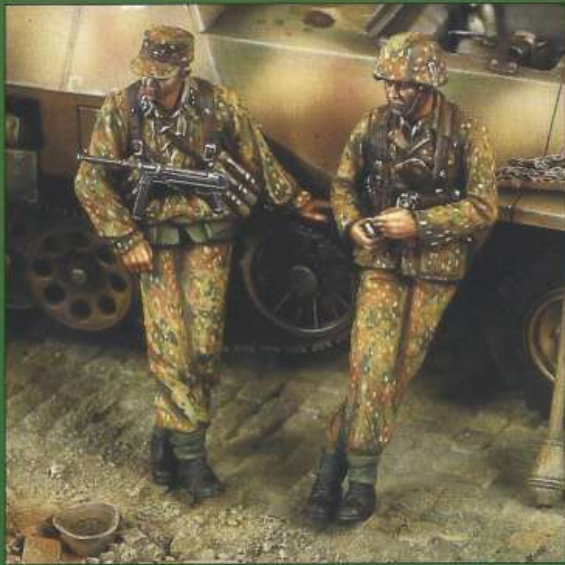

**1373 Richard De Vere,  
Earl of Oxford  
Giant 200mm**

This figure of Richard De Vere, Earl of Oxford, is based on the alabaster tomb sculpture in St. Stephen's chapel at Bures Suffolk. Our sculptor visited the tomb personally to ensure that all of the details are absolutely correct and accurate, turning this 200mm figure into a magnificent piece of shining armor. Resin base included.

**1371 "At the Roadside"**  
**WWII German soldiers 1:35 Scale**

These 2 figures are of German WWII SS soldiers outfitted in full camouflage uniforms as they take a cigarette break at the roadside. Leaning relaxed against a vehicle, fence, or building, they will fit almost any diorama depicting the period of fierce battles for control of western Europe.

**1372**  
**Aces of the Luftwaffe**  
**Erich Hartmann**  
**200mm Bust**

Our second 200mm bust in the Aces of the Luftwaffe series is the world's top scoring fighter pilot, flying 1425 missions over the eastern front and engaging in over 800 dogfights. Called "Black Devil of the Ukraine" by Russian pilots, Erich Hartmann's score of 352 victories will probably never be equalled in the history of combat aviation. This bust shows Hartmann wearing the Luftwaffe Schirmmütze and the partly open leather flying jacket shows the Ritter Kreuz dangling from his neck. Resin pedestal included.

**1377 "To Safety" WWII German Tankers 1:35 Scale**

During the last 2 years of the war, the chaotic mixture of uniforms supplied to tankers often led to different outfits within the same crew. This is the case with our new 3 figure set, showing a wounded tanker being carried to safety by his comrades. Great value for action scenes from Normandy to Berlin.

**1375 5th Georgia infantry**  
**Corporal, "Cinch Rifles" 120mm**

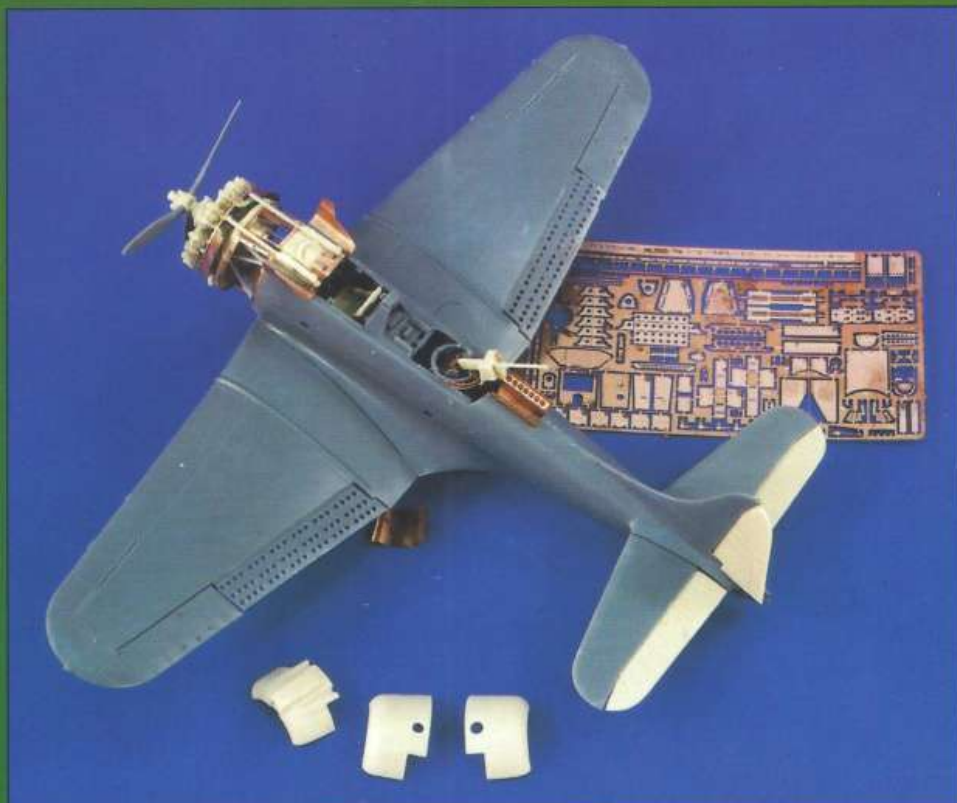

From the start of the war, company "A" of the 5th Georgia infantry called itself the "Cinch Rifles" and kept that name throughout the entire period of the war. Most companies of the 5th wore different uniforms: some green, but most opted for the light blue trousers striped white and a dark blue frock coat. Distinctive was the blue with "CR" badge. To note is the typical wooden canteen seen on so many rebels. Our figure shows a Corporal resting on a slope and smoking his pipe. Full resin with base, personal gear, rifle, and lead foil to make straps for rifle, canteen, and haversack.

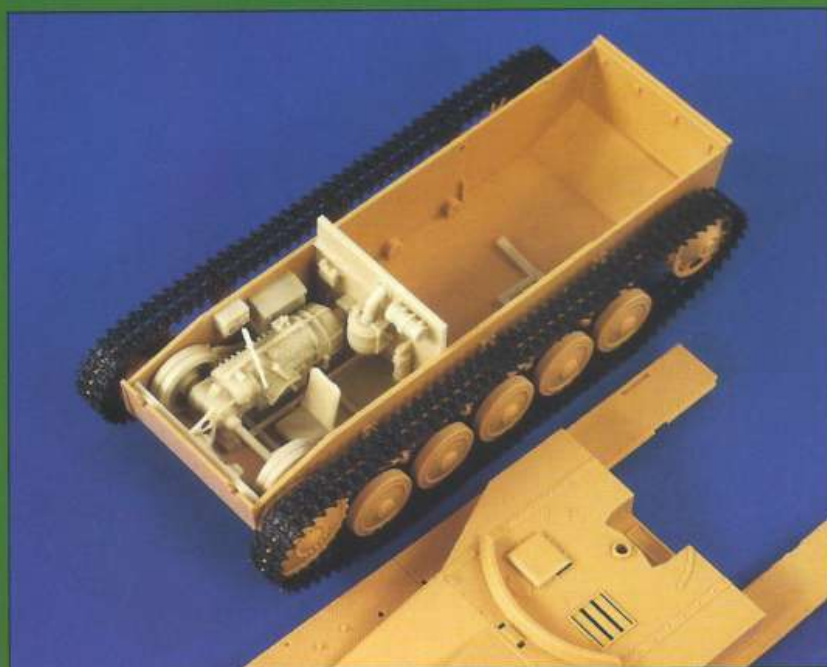

### 1380 German Infantry & Tank Officer WWII, Battle of the Bulge 1:35 Scale

These 2 new German WWII figures represent 2 SS soldiers in typical outfits during the Battle of the Bulge, Ardennes, 1944. The high ranking officer is wearing a leather outfit over his field gray uniform and gray army pattern forage cap. The second soldier is from a SS Panzergrenadier regiment, wearing a camouflage smock and trousers and a field gray einheitsmutze. He wears full gear and is armed with an MP40 and a panzerfaust. Both figures can also be used for eastern-front scenes of 1944-45.

### 1378 SBD-1, -2, -3, -4 Dauntless/ A-24 Banshee 1:48 Scale

This comprehensive detail set includes resin and photo-etched parts to expose the nose of the famous SBD (Slow But Deadly) dive bomber from Accurate Miniatures. Resin details include pilot's and gunner's seats with molded-in seatbelts, tail control surfaces, .30 and .50 cal. machine guns, complete engine and bulkhead accessories. Photo-etch details include cowl panels, cowl flaps, .30 cal. storage doors, ammo boxes, and much more.

### 1379 Wespe Driver Compartment 1:35 Scale

This full Wespe driver compartment fits the Tamiya kit. It contains resin floor, back wall, full transmission, driver's controls, and instruments. Looks great through the large open driver's compartment hatches.

### 1374 Luftwaffe Pilots & Groundcrewman 1:48 Scale

This new 1:48 scale set was designed by popular demand. Luftwaffe fighter pilots are cast as one piece with the seat, ready to fit most 1:48 German WWII fighter kits.

One figure is being strapped in by a ground-crewman, the other is giving his thumbs-up, departing for or arriving from a mission. More to come...  
3 full figures, all resin.

**VM-09-03 Verlinden Modeling Magazine Vol.9 No.3**

**1376  
 "The Zombie"  
 1:3 scale**

Not too much to say about our first 1:3 scale fantasy bust. A zombie crawling out of his grave. It's ugly, scary, and gory, but that's what it's all about. The picture says it all. Just for fun!

## October 1998 New Items

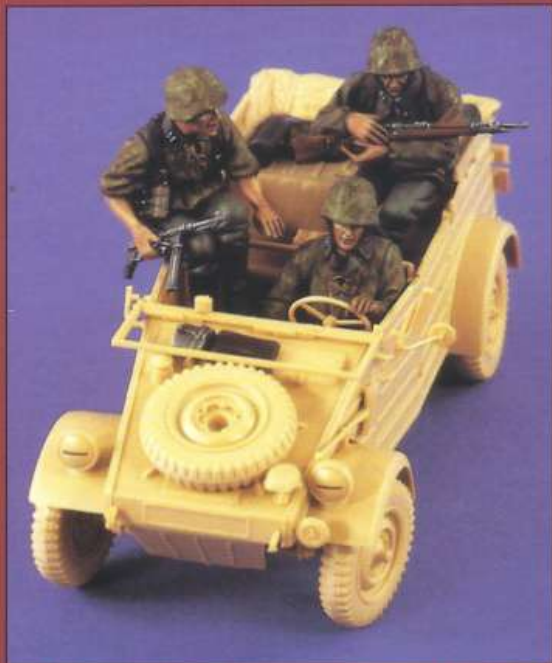

### 1390 Battle Lord 1:3 Fantasy Bust

Following our Zombie bust, number 2 in the new 1:3 scale series comes a fearful battle-hardened battle lord right out of a fantasy movie. Impressive in size and detail, this is a perfect item to break away from mainstream modelling. All resin.

Picture shown is actual size.

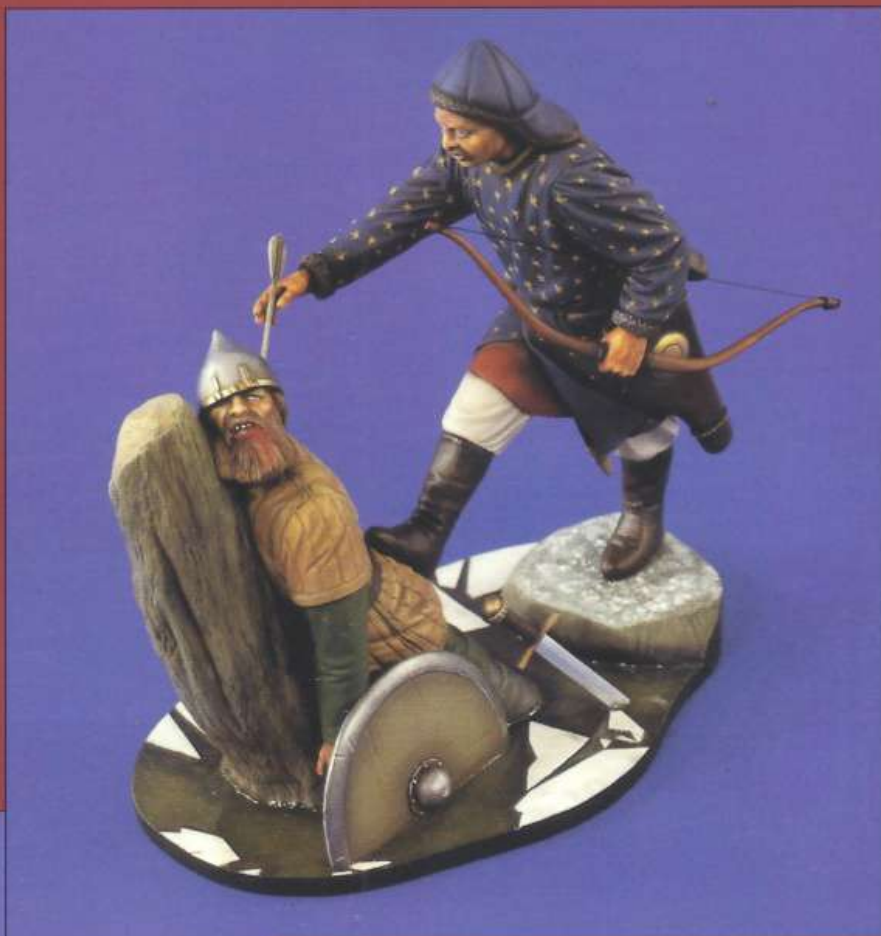

**1381 Kubelwagen Crew WWII  
1:35 Scale**

A 3 figure set designed to fit any 1:35 Kubelwagen kit. SS troops dressed in camouflage jackets over the standard gray uniforms. A driver, an officer shouting directions, and a soldier with his weapon ready. With a little adaptation, these figures can be made to ride tanks and other vehicles. All resin with full gear for each figure.

**1382 Mongol cavalryman & Russian warrior ca.1225  
120mm Vignette**

This vignette tells just one of the stories somewhere in Russia when the Mongols stormed over eastern Europe, leaving death and destruction in their wake. Our scene shows a Mongol cavalryman who has just killed a Russian warrior with a shot in the neck, and is retrieving his arrow. All resin, with base.

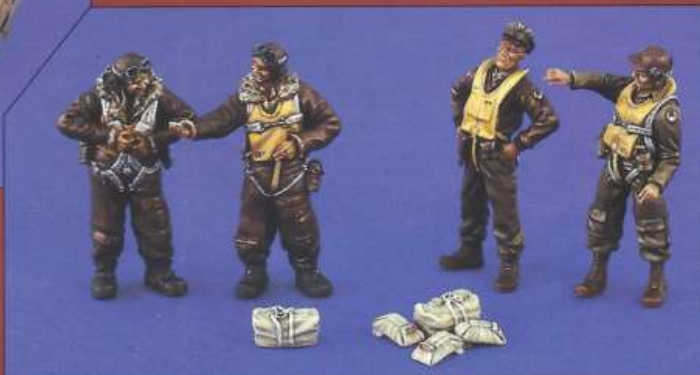

**1388 Kubelwagen with crew WWII  
120mm (1:15 Scale)**

Back by popular demand! This time our rerelease of the popular Kubelwagen comes with 2 crew figures and a selection of arms and equipment. Resin and photo-etch.

**1386 USAAF Bomber Crew WWII  
1:48 Scale**

In our range of 1:48 figures for aircraft dioramas we now offer a set of 4 USAAF bomber crew figures posed just before or after a mission. 2 pilots and 2 gunners dressed in full flight gear, with 2 equipment bags and 3 parachutes. For use with any 1:48 WWII USAAF bomber kits. 4 figures, all resin.

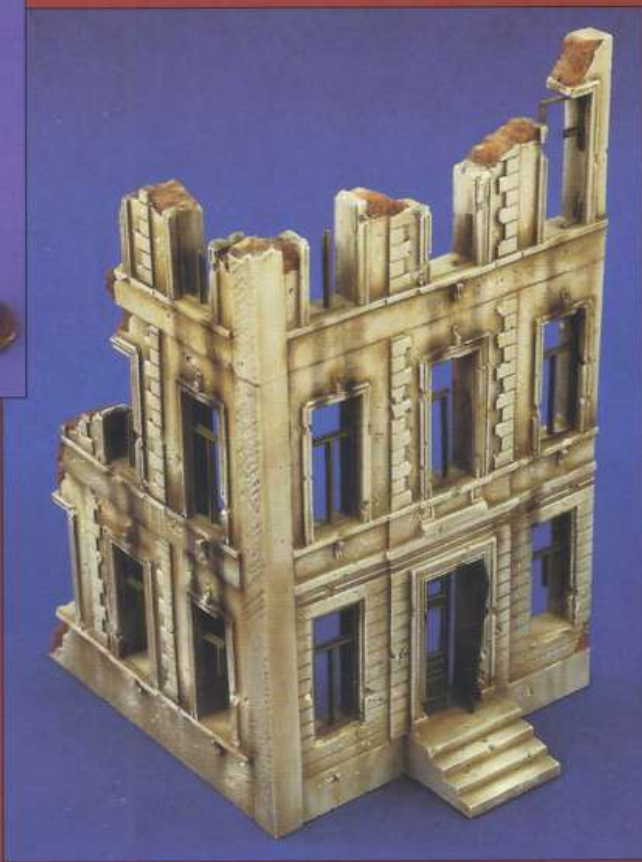

## 1384 German Light Horse Lancers Trumpeter 120mm

This month's addition to our fast-growing collection of 120mm Napoleonic figures represents a trumpeter of the German Light Horse Lancers in campaign dress as he might have appeared during the campaign in Spain in 1808. A colorful action-posed figure not to be missed by Napoleonic buffs. All resin with base.

## 1385 City House Corner 1:35 Scale

This is the first in a series of large metropolitan city housefronts, 2 or 3 more of which will follow soon, enabling the builder to construct a large street scene by combining different kits. This is a large building measuring 6.5" x 6" (15cm x 14cm) and almost 11" high (27cm). Ceramic walls, resin details, window frames, and doors.

## 1387 Me-262A/B Update Set 1:48 Scale

This aircraft detail set is designed to enhance the DML/Dragon kits. It includes over 50 resin parts to detail the cockpit, radio compartment, gun-bay, and engines.

A highly detailed Jumo 004 engine and dropped flaps and slats really spice-up this kit. Optional parts allow you to detail the 2-seat night fighter or the single seat fighter-bomber. External stores include 24 R4M 55mm rockets, 2 SC 250 bombs, and a pair of drop tanks. Full sheet of photo-etched parts included.

**1383  
Cossack Cavalry Lieutenant  
in German Service 1943  
200mm Bust**

Aside from the German insignia on his cap and chest, our bust represents a volunteer in traditional uniform of the Russian Cossack Cavalry Corps. A beautifully sculpted character face and colorful painting project. All resin, with pedestal.

**1389 "The Ace"  
USAF Vietnam  
1:32 Scale**

This 3 figure set shows a USAF pilot being greeted enthusiastically by his comrades and carried off to celebrate his most recent MiG kills over Vietnam. A subject out of the ordinary to be used on a small vignette or in dioramas together with Tamiya's beautiful F-4 Phantom kit. All resin.

November  
1998 New Items

**1400**  
**Battle at Agincourt 1415**  
**120mm**

Our showpiece for this month is this dramatic action-packed vignette cut-out from the battle of Agincourt, 1415. Waleran, French Count of Fauquembergues, is clashing with an English Man-at-arms. The outcome of this encounter is up to your imagination.

## 1394 Swastika's Template All Scales

This photo-etched template is designed to be used as an alternative to using decals. Suggested uses are for aircraft, armor, buildings, wall slogans, flags, etc. There are 8 different sizes, and next to each is a slightly smaller stencil for creating outlined swastika's.

### 1391 German WWII Assault Group 1:35 Scale

A new set of 2 SS Schutze infantry dressed for winter operations. The very bulky outline of the MG 42 machine gunner's padded parka is faithfully reproduced. The kneeling figure is wearing the reversible winter uniform, white on one side, camouflage on the other. Full personal equipment is included for each figure.

### 1392 Africa Korps Foreign Volunteers, India WWII 1:35 Scale

In 1942, Subbas Chandra Bose, the extremist Indian leader, persuaded the Germans to recruit volunteers from the many Indian troops of the British Army that were captured in North Africa. At the end of 1942 about 2000 men formed the "Legion Freies Indien". An unusual figure set for a change.

### 1397 Prussian Infantry 1914 200mm Bust

Our 200mm bust collection continues with this attractive and faithfully represented rendering of a Prussian infantry soldier early in WWI. A point of attraction is the intricately sculpted imperial eagle on the well known black leather pin helmet.

### 1395 MiG-21 PF/FL FISHBED D Superdetail Set 1:48 Scale

This Superdetail set is designed to fit the Academy kit (no. 2166) of the 2nd generation MiG-21's, the P, PF, and Indian HAL built FL. A full resin cockpit tub, SK-1 ejection seat, instrument console, and photoetched details to enhance the early forward-hinged canopy and early 'fowler' type flaps make this kit into a highly accurate representation of this variant. Also included are optional parts to detail the forward avionics bay, a separate radar unit (great for diorama's), F.O.D. covers, an open parabrace housing, airbrake and afterburner details, an external GP-9 gunpod, Soviet-style wheel chocks, boarding ladder, and more! Over 100 resin and photo-etched parts.

Contents of Kit

### 1393 Diorama Base 1:35 Scale

Glue together 3 pieces, paint, and you have an instant diorama base in just a few hours that can take a Jeep, Kubelwagen, or a small gun and a section of figures. A cut-out from a European town during WWII. Measures 5.5"x 6" (14 x 15 cm) All resin.

### 1396 German clothing WWII 1:35 Scale

Long overdue and by popular demand, this German clothing set can be used over and over again on vehicles and dioramas. Black and camouflage tanker's jackets, folded Wehrmacht jackets, boots, and shoes add that final touch of realism.

### 1399 Dutch Grenadier Officer 120mm

This Imperial Guard Dutch Grenadier Officer is designed to form a unit for vignette building together with our previously released Grenadier Soldier (No. 942) See photograph.

## 1398 LRRP Vietnam 120mm (Long Range Reconnaissance Patrol)

The main mission of LRRP teams during the war in Vietnam was to insert a six-man patrol behind enemy lines, who would stay in their area of operations for six days, following a pre-planned route reconnoitering the area for accurizing maps, recording any enemy movements and locations, and to sneak out without any enemy contact and pass the gathered information to intelligence.

Our LRRP representative could not avoid enemy contact and is attempting to silently snuff-out his opponent with his Colt .45 equipped with a sound suppressor. He is wearing the popular "tiger-stripe" uniform and carries a full load of weapons and equipment: both smoke and fragmentation grenades, army survival knife, canteens, flashlight, CAR-15 rifle, and ammo-pouches.
