About this catalog :

VP products are sold unassembled and unpainted. Most of the items in this catalog are shown assembled and painted. The resin and brass-etched contents of the update sets are then displayed next to the plastic kit which needs to be purchased to complete the conversion.

Figures shown (all scales) are also assembled and painted using the box art as assembling and painting guide. Paint is never included. Only printed items are released in the colors shown or indicated.

Some parts of the kits in this catalog may be prone to minor warpage and/or shrinkage. Some straightening and modification of those parts may be necessary to obtain optimum results.
